# CTDDR-2004

The first International symposium Current Trends in Drug Discovery Research (CTDDR-2001) was organized to mark the Golden Jubilee of Central Drug Research Institute (CDRI). The second international symposium CTDDR-2004 will address the new challenges in the context of post genomic era. The symposium will provide a platform for interaction between chemists and biologists working on various aspects of drug discovery research in the following key areas:

- ▶ Genomics, proteomics & pharmacogenomics
- ▶ Target driven chemistry: Medicinal, combinatorial & natural product chemistry
- ▶ In silico approaches to drug discovery: QSAR, molecular modeling, virtual screening
- ▶ Screening models: Transgenic, insect, cell culture & target based assays
- ▶ Regulatory and IPR issues in new drug development

## Venue

Central Drug Research Institute, Chattar Manzil Palace, Lucknow, a constituent laboratory of CSIR is a premier center for drug research in India.

## Lucknow

A sprawling historical city on the banks of river Gomti, Lucknow is the capital of Uttar Pradesh. A beautiful city of gardens, once noted for its Nawabi culture and famous for its handicrafts, mangoes, is now an important education center in northern India with several biomedical R&D institutions and academic centers.

## Climate

Lucknow is moderately cold in mid February and participants are advised to bring warm clothing.

Day Temp. 15-22C

Night Temp. 8-15C

# CTDDR-2004
